MANGOES

PRODUCT INTRODUCTION

Pakistan is renowned for its premium mango varieties, particularly Sindhri, Anwar Ratol, and Chaunsa, celebrated for their exceptional sweetness and rich aroma. Grown in fertile regions, these mangoes are packed with vitamins and nutrients, making them a healthy and delicious choice. Enjoyed fresh or in desserts, they are a staple of summer and a symbol of the country's agricultural heritage.

MANGO TYPES

WHITE CHAUNSA

SINDHRI

SB CHAUNSA

RATOOL

VAPOR HEAT TREATMENT (VHT)

OUR MANGO PROCESS

HOT WATER PROCESS

MG Agri's hot water treatment process involves immersing mangoes in carefully controlled, heated water for a specific duration. This method effectively eliminates fruit flies and other pests without the use of chemicals, ensuring the mangoes are safe and of the highest quality. The process also helps preserve the fruit's natural taste, texture, and nutritional value, providing customers with fresh, premium mangoes.
